#### PROFESSIONAL SUMMARY

A highly skilled React Developer with 5+ years of experience in developing, and maintaining scalable, high-performance web applications. Expert in React.js, Next.js, Redux, and modern front-end technologies. Passionate about creating dynamic and user-friendly interfaces while collaborating in Agile teams. Focused on delivering results and continuously improving through hands-on experience with emerging technologies.

# PROFESSIONAL EXPERIENCE

# **SENIOR SOFTWARE DEVELOPER**

# Ramognee Technologies | Feb 2024 - Present

# **Project: Threatensics**

- Development of React.js and Next.js components, ensuring reusable, modular, and scalable frontend architecture.
- Implemented Redux for efficient state management, resulting in enhanced performance and app responsiveness.
- Optimized performance by implementing React.memo, lazy loading, and code splitting to reduce bundle size and improve page load times.
- Used custom React hooks (e.g., useForm) to extract and reuse business logic across components.
- Collaborated with UX/UI designers to develop responsive, cross-browser compatible user interfaces.
- Integrated RESTful APIs and GraphQL for seamless backend communication and data retrieval.
- Conducted thorough testing with POSTMAN to ensure API reliability and performance.
- Participated in Agile/Scrum ceremonies (sprint planning, stand-ups, retrospectives), improving team collaboration.

Technologies used: React.js, Next.js, Redux, HTML5, CSS3, GitHub, REST APIs, GraphQL, OSF.

#### **SOFTWARE ENGINEER**

#### Mastek Limited | Jun 2021 - Dec 2023

# **Project: Restek**

- Developed responsive web applications using React.js and JavaScript, implementing reusable components for faster development.
- Ensured the applications were mobile-first and cross-browser compatible through collaboration with the UX/UI team.
- Applied React Context API in smaller projects for managing global state without the need for complex state management libraries.
- Worked with React refs and controlled/uncontrolled components to address complex UI requirements.
- Integrated third-party APIs using Axios, focusing on error handling and caching to improve performance and user experience.
- Integrated and tested RESTful API endpoints, ensuring smooth integration between frontend and back-end systems.
  - Technology used HTML5, CSS3, React Js, Github, OSF(Open store front framework).

# Project: ZimVe

- Identified, replicated, and resolved UI defects, including cross-browser issues and responsive design bugs.
- Collaborated with remote teams across multiple locations to ensure seamless UI functionality.
- Managed Git version control and resolved merge conflicts, ensuring smooth collaboration across multiple teams.
- Employed Jira for tracking bugs and managing tasks, ensuring efficient workflow and timely resolution of issues.
- Technologies used: JavaScript, Bootstrap 3, React.js, CSS3.

# ADVISOR II CONCENTRIX LIMITED, 04/2019-06/2021

- Used React.js and JavaScript to debug and resolve issues in the application's codebase.
- Collaborated with development teams to fix complex technical problems, improving the app's performance and usability.
- Managed bug tracking and project management through JIRA, ensuring timely resolutions and communication.

# **EDUCATION**

Bachelor of Technology (B.Tech) in Information Technology

Graphic Era Hill University, Dehradun | 2013 - 2017: 72%

Intermediate (CBSE) | 2013: 67%

Matriculation (CBSE) | 2011: 76%

# **TECHNICAL SKILLS**

Languages: JavaScript (ES6+), jQuery

Frontend: React.js, Next.js, Redux, HTML5, CSS3, Bootstrap 3

Version Control: Git, GitHub

APIs: RESTful, GraphQL

Tools: NPM, Yarn, POSTMAN, Jira

Methodologies: Agile/Scrum, Test-Driven Development (TDD)

# **KEY STRENGTHS**

- Strong expertise in React.js and state management using Redux.
- Deep understanding of RESTful and GraphQL APIs.
- Ability to work collaboratively in Agile teams and deliver high-quality results under tight
  deadlines.
- Expertise in debugging and optimizing code for performance, scalability, and user experience.
- Strong problem-solving skills with a focus on delivering scalable and maintainable code.
